

JOVEN – JEUNESSE - YOUNG

THE YOUNG OMAEC

Young OMAEC objectives must be based on and continue the line of the OMAEC, because as this Commission should support the achievement of the general objectives rowing in the same direction.

The purposes for which OMAEC founded in 1967, which were updated in 2013 and set out in Article 5 of the Statute are:

- a) **PARTICIPATE**, *global, knowledge, affirmation and diffusion Evangelical Education and, particularly, on the Freedom of Education, respecting different religious convictions of its members.*
- b) **PROMOTE** *to creating Organizations World alumni congregations. Unions where there are continental and national federations.*
- c) **SERVE** *to Organizations Associates in conducting their own ends and encourage relationships including understanding, mutual support and common shares based on spiritual values and charismas that encourage the institutions in which they have educated their members.*
- d) **STIMULATE** *global commitment and cooperation of the alumni, to safeguard the dignity of the people and the service of the human community without distinction, according to the principles of Christian education.*

On the other hand, the Statute contains what should be the modes of action of OMAEC to achieve the purpose; we adopt modes from young OMAEC set out in Article 6 of the Statutes:

1. **REPRESENT** *their organisms in all matters relating to the common initiatives in the global and in particular the United Nations and its agencies.*
2. **HOLD** *permanently worldwide relations with international organizations, which are directly or indirectly interested in educational issues and the advancement of the individual.*
3. **OPINION** *on social, political, economic and cultural, always defending the values related to our purposes.*

The reason OMAEC creates a special Youth Commission is that they are represented directly within the Organization and that the concerns of younger alumni can be exchanged and channeled in a joint.

Young OMAEC as part OMAEC dependent must base its project and its mode of action in the purposes set out above.

From Young OMAEC must make a commitment to provide, within the possibilities, contact between the different organizations to showcase their concerns, share different ideas on how to encourage the participation of young people and, finally, that the young members of the different Organisms do not feel alone or out of place.

How to achieve the achievement of compromise?

We divide into temporal stages, taking into account the limitations that can be found such as scheduling, distance or various complications.

A first stage of **encounter, in which** Young OMAEC collect information on delegations, vocal or Youth commissions exist within each of the member agencies OMAEC.

After obtaining the information, OMAEC Young should be present as part Active in **social networks** where OMAEC is represented. Young people use social networks and OMAEC Young should be where they are.

A **second phase** of contact, in which the interview that all members of the Young OMAEC speak to all committees and delegations they gathered information to say what their different concerns and needs, but also how OMAEC young can help.

A third stage meeting. Many times relationships **fall Organizations stops** by distance, physical encounters promote dialogue, exchange of proposals and staff; especially not feel alone in the world.

Young OMAEC could use to do **meetings** of Young Alumni of Catholic Schools, in which young people can exchange lifestyles, viewpoints professional or study.
